# Drug Anagrams

## **Learning Outcome:**

- To learn the names of some recreational drugs

## **Equipment:**

- The Drug Anagram Sheet

## **Instructions:**

- Print off or copy the drug anagram sheet.
- You can either work the drug names out together – or turn it into a competition. (Who can answer the most/or the quickest.)

**National Curriculum:** It is not really teaching anything towards the curriculum – other than an introduction to drug names. Of course, you can then go on to research something about each drug you 'solve' and link it to: Secondary - Pupils should know the facts about legal and illegal drugs and their associated risks, including the link between drug use, and the associated risks, including the link to serious mental health conditions.

# Drug Anagram Sheet

1.	CHOALLO
